Commissioner Martin:

Dear Sir,  
Just wanted to let you know that a way for you to contribute to a healthy child's life is by taking a stand on the violence in TV. Basic cable packages should not include R rated movies or violent shows like CSI. I do turn the channel when something is not appropriate for my children to view, but it would be so much better if i didn't have to worry about what they were going to see while they are changing channels! Does violence affect kids? Children role play all the time! Of course it does! If things don't change soon, we just may have to get rid of the TV! Thanks for this opportunity to tell you what I think!

Sincerely,

Julie Fry

Commissioner Abernathy:

This is in reply to an inquiry on television violence and its effect on children.

My question is why are we only concerned with the effects on kids? The effect on society as a whole should be of concern.

We have become a very violent society that cannot even tolerate being cut-off in traffic and forgiveness has been replaced by revenge.

I am very concerned at the violent programing on television. I believe children become desensitized from viewing the violence and began acting out what they observe on T.V. There are too many examples to give in one e-mail. Regardless if it's a child who is injured or killed while acting out wrestling moves they watched on T.V. or immitating graphic violence of stabbings they watched on Television it needs to stop. There are reasons our Parents and Grandparents put limits on these things and that's what we need to remember. Please help concerned parents stop all the violence our children our forcefed through the media.

Where are you going to draw the line with violence and sex on television. Our children are being desensitized and then everyone wonders what is wrong with our youth. Their innocence is being stolen. To say people don't have to watch isn't working because you can be watching a decent program and then commercials are indecent.

Please take action to cleaning up television.

My opinion of TV violence is that it is extremely harmful to children and adults. Have you ever had allergy shots, little bit of serum each week and pretty soon your not allergic anymore. I feel thats the way violence works. The more we are exposed the less it "human" it makes us.

Please act responsibly. End violence on TV

Violence on t.v. is unhealthy for everyone, from children to adults. Not only does it desensitize those watching, it gives the illusion that is how many people live their lives. Visual images are very powerful and one can think of them many times later, long after the program is over. The same message can be given without the violence. Use a little creativity and leave out the violence.
